

# ICPS 2024

## Wednesday, 7 August 2024

### Student Lectures (Interdisciplinary/Other): ID-01 - 418 (11:30 - 13:30)

time	[id] title	presenter
11:30	[1] Knowledge is Meant to be Communicated: Importance of Public Science Communication	HASAN, Ali
11:50	[28] ICPS 2025	POPOVIĆ, Borko VASOVIĆ, Zlatan
12:10	[17] The Plasma Window for Enhanced Particle Beam Transmission from Vacuum to Atmosphere	RUIMI, Ophir
12:30	[35] Dissociative electron attachment to carbonates	KHARCHILAVA, Giorgi
12:50	[54] The influence of solar radiation and atmospheric circulation on temperature anomalies in Warsaw	KACZOROWSKI, Filip
13:10	[69] RAF - Analog Space Mission - The first analog space base on mining heaps	GODLEWSKA, Natalia

# Saturday, 10 August 2024

## Student Lectures (Interdisciplinary/Other): ID-02 - 418 (11:30 - 13:30)

time	[id] title	presenter
11:30	[78] Non-linear longitudinal waves in Ferrite rod	Mr UGULAVA, Irakli
11:50	[83] Relativistic Fluid Dynamics: A Study on Taylor Flow	GHELEKVA, ani
12:10	[93] An application of XRF spectroscopy to heritage science - the case study of ancient roman building materials from Lebanon	SOKOŁOWSKI, Marcin
12:30	[116] On the construction of harmonic functions with rational degrees of homogeneity in Euclidean space	Ms POSOKHOVA, Ekaterina
12:50	[178] Obtaining various magnetic fields with a two-dimensional system of currents	TOIDZE, John
13:10	[207] 2+1D Non-Hermitian chiral Majorana surface states in topological superconductor	GIORGADZE, Niko
